EN Beagle

Dogs have an amazing sense of smell

A dog's nose has around 220 million scent receptors, while a human has only about 5 million! That's why dogs can sniff out things that we would never smell.

FR Beagle

Les chiens ont un odorat extraordinaire

Le nez d'un chien possède environ 220 millions de récepteurs olfactifs, alors qu'un humain n'en a qu'environ 5 millions ! C'est pourquoi les chiens peuvent sentir des choses que nous ne sentirions jamais.

ES Beagle

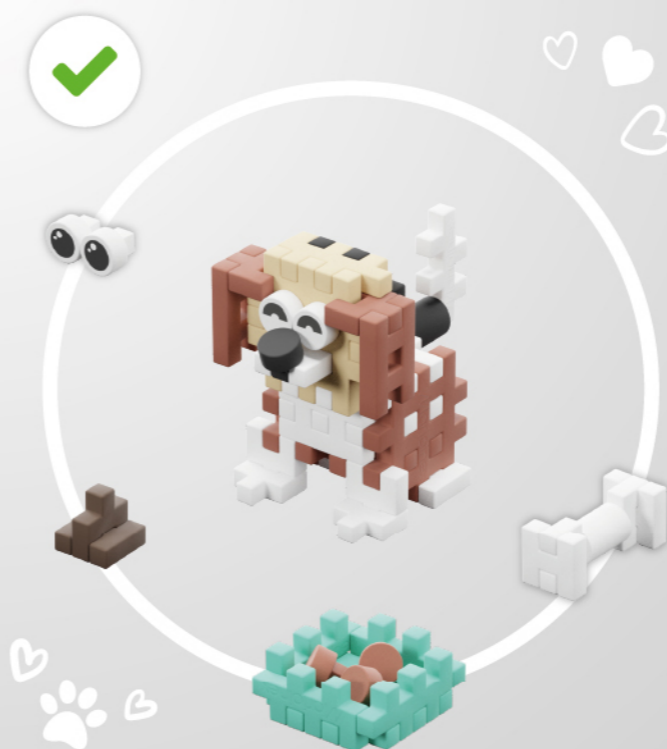

Los perros tienen un sentido del olfato asombroso

La nariz de un perro tiene alrededor de 220 millones de receptores olfativos, mientras que un humano solo tiene unos 5 millones. Por eso los perros pueden oler cosas que nosotros nunca percibiríamos.

PL Beagle

Psy mają niesamowity węch

Pies ma w nosie około 220 milionów receptorów zapachowych, a człowiek tylko około 5 milionów! Dlatego psy potrafią wywęszyć rzeczy, których my nigdy byśmy nie poczuli.
