EN Pug

**Yawning is contagious for dogs too**

When a person yawns, often their dog will start yawning right after. Dogs can "catch" a yawn from humans, just like we yawn when we see someone else yawning.

FR Carlino

**Le bâillement est contagieux aussi pour les chiens**

Quand une personne bâille, souvent son chien se met à bâiller juste après. Les chiens peuvent « attraper » un bâillement d'un humain, tout comme nous bâillons en voyant quelqu'un bâiller.

ES Carlin

**El bostezo es contagioso también para los perros**

Cuando una persona bosteza, a menudo su perro empieza a bostezar justo después. Los perros pueden "contagiarse" un bostezo de los humanos, al igual que nosotros bostezamos al ver a alguien bostezar.

PL Mops

**Ziewanie udziela się też psom**

Gdy człowiek ziewnie, jego pies często po chwili też zaczyna ziewać. Psy potrafią "zarazić się" ziewaniem od ludzi, podobnie jak my ziewamy na widok ziewającej osoby.
