**EN West White Terrier**

**A dog curls up to stay warm**

When a dog sleeps all curled up, it's trying to keep its body heat in. That position also lets the dog protect its soft belly and feel safe.

**FR West White Terrier**

**Un chien se met en boule pour avoir chaud**

Quand un chien dort tout en boule, c'est pour conserver la chaleur de son corps. Cette position lui permet aussi de protéger son ventre tout doux et de se sentir en sécurité.

**ES West White Terrier**

**Un perro se acurruca para mantenerse caliente**

Cuando un perro duerme hecho una bolita, lo hace para conservar el calor de su cuerpo. Esa posición también le permite proteger su barriguita blanda y sentirse seguro.

**PL West White Terrier**

**Pies zwija się w kłębek, żeby było mu ciepło**

Gdy pies śpi zwinęty w kłębek, robi tak, by zatrzymać ciepło swojego ciała. Taka pozycja pozwala mu też chronić miękki brzuszek i czuć się bezpiecznie.
